Dear Justic Warren,

It has come to my attention that your committee has hired a Mr Norman Redlick at 100.00 a day as a consultant. Mr Warren, I am helping to pay that 100.- per day salary and I strongly object to a man with his pro-Commie background on the govt payroll. There is too much of this garbage going on today of having everyone in government employ having association with at least 3 or 4 Communist fronts. How are we ever going to win over this disease, (or don't you want to!) Lets get more pro-American people and less One-World lovers. Until Americans decide by vote that they want one-world govt over our government with its laws, I think it is very unfair to impose your will on us. (Especially since you have sworn to uphold our Constitution and not the UN.

Sincerly
Harold Russel
